

DANIELSKUIL CEMETERIES PROJECT

Data-base 1

List of headstones in the Kuilsville cemetery

Introduction

These photographs were taken in July 2021 by Keitu Oliphant and Katlego Serati, who live in Tlaka-la-Tlou in Danielskuil.

Some of the gravestones are illegible, or partially illegible.

There are many graves with no headstones at all, and therefore this is not a complete list of the people buried in the cemetery.

There are 417 gravestones on the list. It is possible that the collection of photographs is incomplete (i.e. some graves may have been missed).

Also, any gravestones added after July 2021 would still have to be added.

The actual photographs are available on the Genealogical Society website: <https://graves-at-eggssa.org>
